Acting Deputy Director of Central Intelligence
Comments on Draft of "Presentation to the Senate
Select Committee on Intelligence on the DDO Cuts"

My comments are presented in two fashions. I have, in certain instances, edited the text and I believe those changes are self-explanatory. I am also submitting certain alternate language coded to the left-hand margin of the text. The suggested alternate language is as follows:

25X1

Page 2, #1--Add the following, "This does not mean that individuals are leaving involuntarily. Normal attrition will take care of an appreciable percentage of this figure."

Page 5, #2--"The identification of people to leave is, however, on a competitive basis as I will describe. Therefore some operational personnel serving abroad will be affected but replacements will be assigned to their positions."

Page 6, #3--"I should note here that the comparative ranking of employees in the Operations Directorate is available to each person and, accordingly, individuals had an opportunity to be aware of where they stood."

Page 7, #4--I suggest the deleted sentence be left that way and no replacement language be used.

(EXECUTIVE D)
